FIFTY CENTS, CASH WITH ORDER.

TO BID UNDERSTANDINGLY, THIS MUST BE READ CAREFULLY.

Coins and medals are sold at so much per piece, U. S. proof sets excepted. You cannot bid for *one piece* in a lot. If a lot contains ten pieces, and you desire to offer $2 for it, make your bid 20c. The auctioneer will accept an advance of 1 cent up to 50c., then 5c. up to $2.50, when 10c. is the limit, up to $10, and thereafter not less than 25c. Hence any bid up to 50c. can be entertained, but after that the bid must be 55c., 60c., and so on. Such offers as 53c., $1.01, and all intermediate figures are unavailable.

My Terms for buying are 10%, and I make no charge less than 25c.

☞ Auction Sales are strictly for cash. Parties unknown to me must send a deposit covering at least 25% of their bids, otherwise they will not be accepted.

Revise your lot numbers carefully, and the price as well, to be sure you are making the offer you desire and against the particular lot wanted. Do not make a lump sum offer for a lot, — they are always sold entire, — but the bid must be by the piece, excepting in the case of U. S. Proof Sets. There are no other exceptions unless definitely so stated in the catalogue.

Make *no corrections* or alterations of figures, *draw your pen* through all errors and make a *new entry*. Do not use a lead pencil; such marks become indistinct by handling. Avoid making small figures.

Kindly let your bids come in early; those arriving late are apt to crowd a large amount of work — and sometimes with confusion — into the last two days before the sale.

It is respectfully requested that remittances be made by *Exchange on New York*, the collection charges on small checks being quite an item, where there are so many of them. Patrons will be credited with the net amount received for their checks.

This card is unpublished. One answering the same description is to be found in my catalogue of the Benj. Betts collection, — January, 1898, — where it also appears on the plate. The size, however, is but 15 mlm. Rahming I conclude kept a public house about 1845–55, in one of the suburbs of Brooklyn, possibly on the road to the now famous Coney Island, or even in the locality of what is known to-day as Long Island City. I regard this piece as of the very highest rarity, inasmuch as it has never before come to light among coin collectors.

467 1794 Hays Nos. 5, 12, 34, 37. Poor, fair and about good. 4

468 1794 Hays No. 46. This variety has been described "without line between fraction" but as a matter of fact, the line is there, though sadly out of place. It fairly touches the bottom of the "1." This strong impression clearly demonstrates its presence. Nevertheless it is a very rare variety. Good, though cleaned. 1

469 1794 Hays No. 50. Good, the rev. is poor. 1

470 1794 Not in Hays. Obv. similar to No. 10; Y nearer T in Liberty and place too high; hair does not touch truncation at back; the lower curl starts from a point near the end of bust, which is marked by a slight break in the die. There is also a delicate crack in the die along the point of bust and it passes through the Liberty pole. Rev. the same as No. 10. Extremely fine, though light nicks are present, yet barely so to the naked eye. In uniform shade of light brown. Excessively rare, not more than 5 or 6 specimens known, and I judge the one here offered to be superior to the others. The Cent has been very justly named the "Gilbert variety," after the gentleman who discovered it, Mr. E. Gilbert. 1
